

Make an Origami Dog

Origami Dog Step 1: Start with a square piece of paper. If it is colored paper, put the colored side face down on the table as shown below. Then fold along the diagonal to give a triangle.

Origami Dog Step 2: Now fold the corners together and unfold, to give a crease as shown. Then fold the dog ears down, using the crease line as a guide.

Origami Dog Step 3: Next fold the top and bottom of the head, away from you. The dog is done! If you like, you can draw eyes, a nose and a mouth.
