

My Corner Shop

This week, you are going to become your very own boss! You need to set up a pretend shop in your house.

1) Decide what type of shop you are going to have.

Will you sell food, clothes, toiletries etc?

2) Decide on a name and make a poster to let everyone know about your shop.

3) Make leaflets to let people know about special offers in your shop.

4) Ask an adult to help you choose some things from around your house to sell in your shop.

5) Price all the different items.

6) Organise your products in a way which will make people want to buy them.

7) Sell your products. Make sure your customers get the correct change! Get an adult to take photos of this!

8) Count up how much money you make at the end of the day.

9) Take orders from your customers and prepare these for delivery.
