

## Science Activity

We're going on a tree hunt!

Download the tree identification app from Woodland Trust

<https://www.woodlandtrust.org.uk/trees-woods-and-wildlife/british-trees/tree-id-app/>

On your next family walk , stop and take a look at some of the trees. The tree app will walk you through how to classify each tree.

In your distance learning book, draw a picture of a deciduous tree. Then draw a picture of a coniferous tree.

Write a short explanation below your pictures to explain what a deciduous tree and a coniferous tree is and how you can spot the difference.

Happy hunting!
