

Now that you have designed your theme park, why not make a model of one of your rides? It can be as creative as you like. Use any recycled materials, paper and card that you have at home.

Other activity ideas:

- Write from the perspective of a person on one of your rides.
- Write from the perspective of the ride (personification). You could become the tracks or the seat!
- Design a logo for your theme park and create some merchandise to sell.
- Make a video advert for your theme park.
- Design a ride – draw an in depth diagram with labels.
