

Dear Parents,

I can't believe that it has been a month since I have seen some of you! I have enjoyed looking at the photos I have been sent and hearing about the activities that have been shared!

If you haven't yet shared anything with me, I'd love to hear from you. I'm hoping to be able to keep up the Learning Journals and have evidence of some of the activities that your child has completed.

As before Easter, the activities I have added this week show the EYFS focus area i.e. **Mark Making Activity: Physical Development**. I thought it may be useful to see how some of the activities are broken down.

The topic for the next half term is nature and the World Around Us. Within this, we will be looking at:

- Life cycles
- Mini beasts and sea creatures
- Growing

For lifecycles, we will be looking at the book "The Hungry Caterpillar" by Eric Carle. I will include some relevant links to the story online in the information I send out. We will also be looking at the life cycle of a butterfly; again I will include some links for videos/information to share.

I also suggest that you look at the activities that have been uploaded on to the Reception pages, as there are additional activities that may be of interest.

Keep up the good work and, above all, stay safe and healthy!

Rachel Fisher
