

# Discovery Week 6

No SATs SATs Week!

Show us what you're made of!

I ME

REVIEW

This week would have been SATs week if we were still at school!

Obviously, you have missed out on taking the actual tests (some of you may be celebrating... while others may be commiserating) but we know how much progress you made in the build up and recognise the hard work each and every one of you put into your learning.

**SATs doesn't  
test everything  
that you are  
capable of!**

SATs tests English and Maths skills.... But what about the other skills you possess?

# PROJECT YOU!

We introduce to you 'Project You' to replace SATs week!

- ▶ Think of what makes you *you*.
- ▶ English and Maths are only one set of skills you possess.
- ▶ What other skills do you have?
- ▶ What things interest you?
- ▶ What do you have a passion for?
- ▶ What are you learning to do at home?

Mr Cheeseman and Mrs Cresswell would like to know a little more about what interests you most!

# PROJECT YOU!

**We introduce to you 'Project You' to replace SATs week!**

- ▶ Your Discovery this week is one project about you.
- ▶ During the week we would like you to present a project about an interest you have.

Your project could be a PowerPoint with photos of you, information and diary entries.

It could be a collage of your interest and how you participate in it.

It could simply be a diary account of how you have developed your interest across the week.

It could be an artwork!

# How should I present it?

## Be creative!

- ▶ How you present your project is up to you and your creativity.
- ▶ Express your hobby or interest however you want.
- ▶ All we ask is that you spend about **one hour** each day working on your 'You' project piece.

So remember... you need to think of something that you do that is part of who you are and create a project based on it!

E.g. Cooking, Football, Circus skills, Computing, Music, Collections, Films, Books, Gardening, Art, Sewing, Knitting, Sports and Fitness
