Numbers to 100

# Week Timetable

In Maths this week, we are going to continue looking at **Numbers to 100**. We will be using Resources from [Oak National Academy Week 4](#) to help us on our learning journey.

Click here to go to the games page

Please complete the work in your exercise books and remember to send pictures of your work to your class teachers - we really love seeing how you are getting on!

Click on the lesson you would like to complete:

[Lesson 1](#) – [Monday 18<sup>th</sup> May](#)

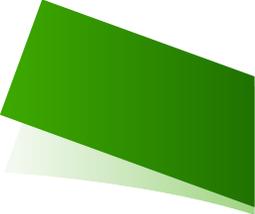

[Lesson 2](#) – [Tuesday 19<sup>th</sup> May](#)

[Lesson 3](#) – [Wednesday 20<sup>th</sup> May](#)

[Lesson 4](#) – [Thursday 21<sup>st</sup> May](#)

[Lesson 5](#) – [Friday 22<sup>nd</sup> May](#)

[Optional Maths Challenge](#)

# Games

Here are 5 games that will help consolidate this week's learning. Click on the picture of the game you want to play.

Place Value Basketball  
This game helps you to get familiar with dienes.

Helicopter Rescue  
This game is great for getting more familiar with a hundred square.

Blast Off  
This game is great for practicing counting forwards and backwards and identifying numbers to 100.

Number line  
This game can be quite tricky but helps you get more familiar with placing numbers on a number line.

Chopper Squad  
This game looks at one more and one less as well as ten more and ten less.

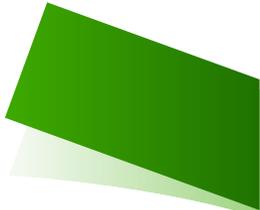

# Lesson 1

IT'S  
MONDAY  
TIME TO  
SPARKLE AND SHINE

Start today's  
lesson

# Lesson 1

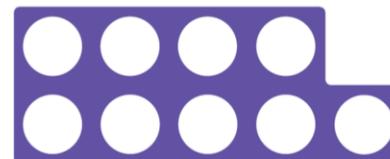

## Fluency

[Click here to see the answers!](#)

- 
1. Complete the place value grid for the number 52.

Tens	Ones

2. What 2D shape has 3 sides and 3 vertices?
3. What number does this represent?

# Lesson 1

## Fluency Answers

Click to move on  
to the next activity

1. Complete the place value grid for the number 52.

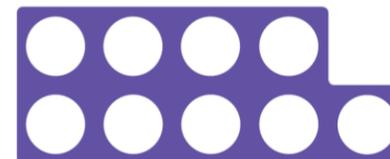

Tens	Ones
5	2

2. What 2D shape has 3 sides and 3 vertices?

A triangle

3. What number does this represent?

9

# Lesson 1

Please go to <https://www.thenational.academy/year-1/maths/to-compare-numbers-within-100-on-a-number-line-year-1-wk4-1> and click on Start lesson. The first lesson is to compare numbers within 100 on a number line.

Work through the lesson, pausing at various points to answer any questions. Please write any answers down in your exercise books.

# Lesson 1

## Task 2

### Task

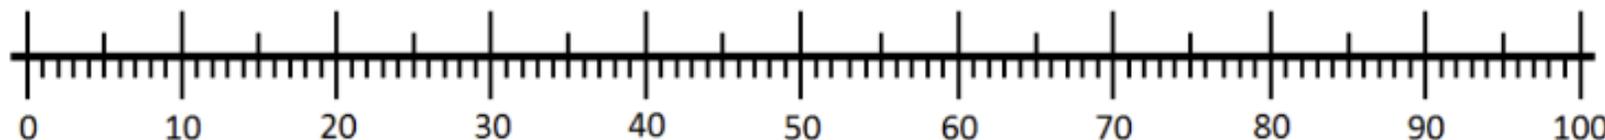

Complete the sentences by counting the number of bricks.

Click here for a 0-100 number line, jumping in 1s, that may help with your independent tasks.

		
Alan has ____ bricks.	Bert has ____ bricks.	Charlie has ____ bricks.

Who has the most bricks? \_\_\_\_\_

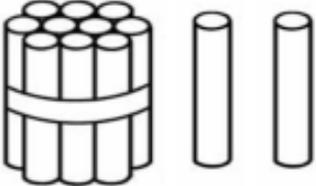

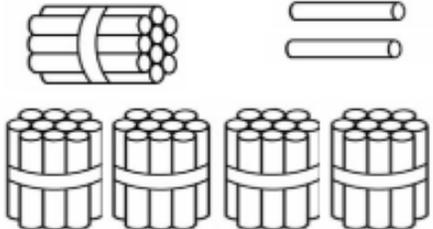

Who has the fewest bricks? \_\_\_\_\_

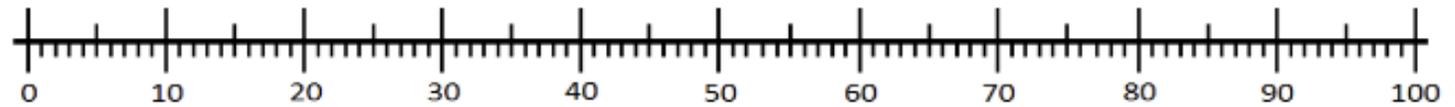

# Lesson 1

## Task

Complete the sentences by counting the number of sticks. Then, tick the true statements.

		
<p>Daniel has ___ sticks.</p>	<p>Eleni has ___ sticks.</p>	<p>Faris has ___ sticks.</p>

Tick the **true** statements.

- Eleni has fewer sticks than anyone else.
- Faris has the most sticks.
- Daniel has an equal number of sticks to Eleni.
-

**72** is **greater** than  **70**

Reasoning

# Lesson 2

On this page you have some reasoning questions to answer. Remember to explain your answers using full sentences,

1. Complete the part-whole model to make the statement correct.

2. Mr Hollis says there are only 3 ways to make the statement below correct.

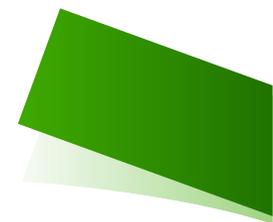

Tens	Ones
5	

is less than

Tens	Ones
	3

Is he correct?

See if you can find more answers than Mr Hollis!

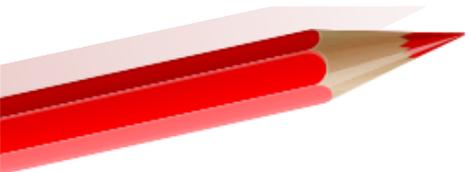

## Lesson 2

You have completed  
today's Maths lesson –  
Well done for working so  
hard!

Click here to go  
back to the main  
menu

# Lesson 3

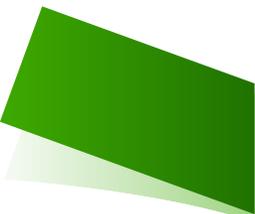

HELLO  
Wednesday

The central graphic features the text 'HELLO Wednesday' in a black, hand-drawn style. 'HELLO' is written on a black banner with white text, and 'Wednesday' is written in a larger, cursive font below it. The text is surrounded by radiating black lines, light blue triangles, and yellow vertical dashes, creating a celebratory effect.

# Lesson 3

## Task

90	12	35	27	71	49
----	----	----	----	----	----

	Greatest value				Least value	
<u>Number</u>						
<u>Dienes</u>						

Order the number cards from the **greatest value to the least value**.  
Draw dienes in the column below to help you.

Further Challenges  
and reasoning

# Lesson 3

On this page you have some further questions and reasoning questions to answer. Remember to explain your answers using full sentences,

1. Put the following numbers in order of greatest value to least value.

91      25      18      72

2. Put the following numbers in order of least value to greatest value.

33      0      47      100

3.

The numbers in each list are in size order.  
Complete the missing numbers.

65	78		91	99
----	----	--	----	----

89	80	72		
----	----	----	--	--

		57		
--	--	----	--	--

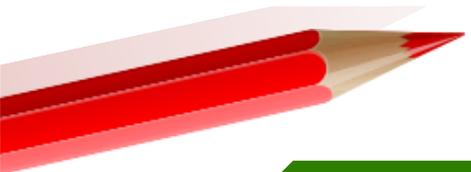

Why did you choose the numbers you did?  
Are they the only numbers that could have completed the number tracks?

Further Challenges  
and reasoning

# Lesson 4

On this page you have some further questions and reasoning questions to answer. Remember to explain your answers using full sentences,

1. Mo creates a traffic jam using some toy cars on the carpet.

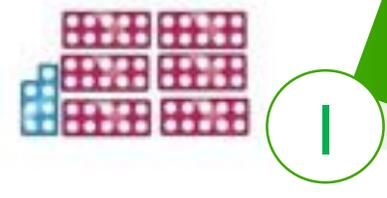

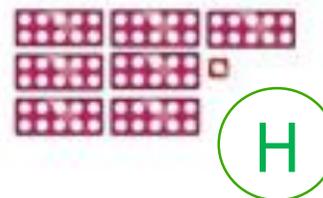

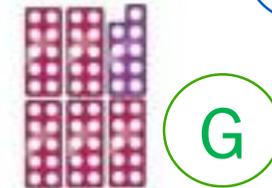

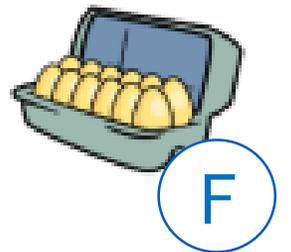

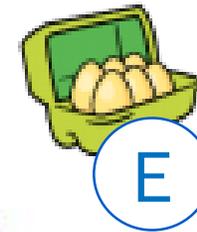

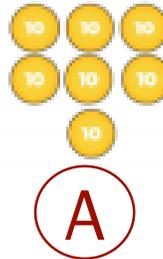

The red car is 3<sup>rd</sup> from the front.  
It is also the 2<sup>nd</sup> from the back.

Use some cars or manipulatives to find out how many cars are in the traffic jam.

2. Put these objects in the correct place in the table.

	Most		Least
Counters			
Number Pieces			
Eggs

# Maths Challenge

This week's optional Maths challenge is called:  
'Teddy's Presents'

This follows on from our look at patterns in lesson 5.

## Teddy's presents

Teddy is seven years old today.

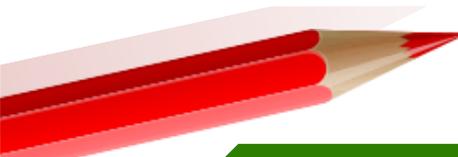

Teddy has seven presents today.  
Each year he is given the same number of presents as his age. How many presents has he had since he was born?

Can you write the number sentence to show this?

# 100 Square

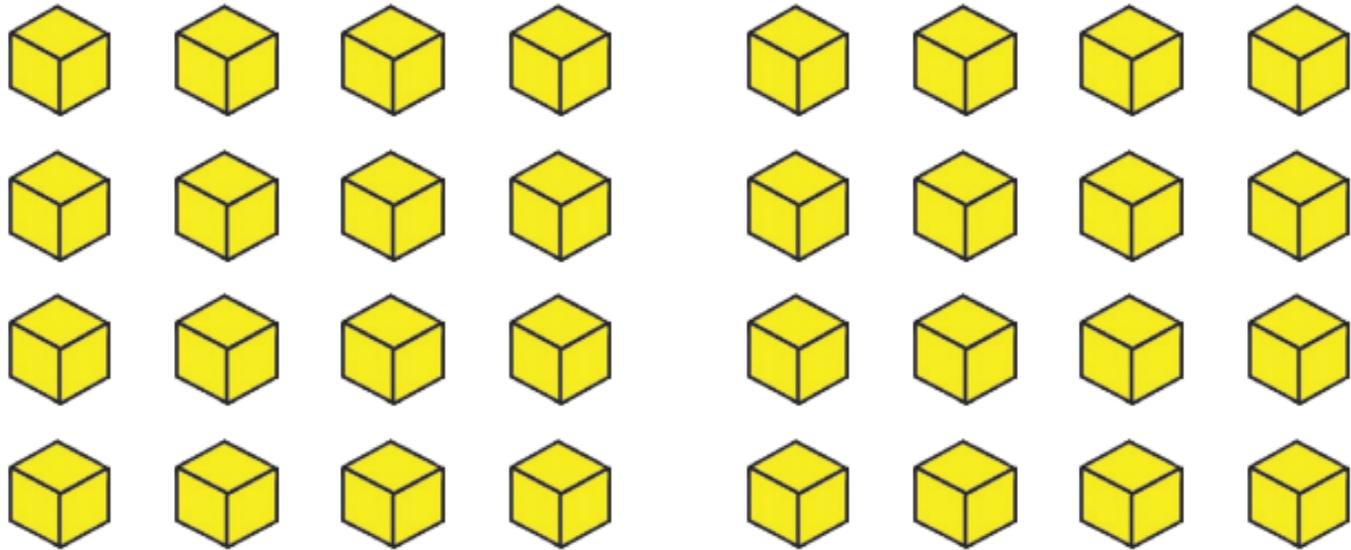

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
