Today you will be using
multiplication to solve problems

Group A – Monday
Group B - Tuesday

Day 1

- ❖ Complete **CGP Maths book pages 8 and 9**
- ❖ [Click here to watch a video, explaining using the bar model to solve multiplication problems](#)
- ❖ Complete the questions on the next few pages

Word problems

(draw a bar model then solve)

Group A – Monday
Group B - Tuesday

1. There are 7 year groups in a school. There are 112 children in each year group. How many children are there in the whole school?
2. A banana weighs 140 g A pineapple weighs 345 g
Bag A contains 8 bananas and bag B contains 3 pineapples. Which bag weighs more and by how much?

Word problems (draw a bar model then solve)

Group A – Monday
Group B - Tuesday

3. A lorry driver travels 156 km per day. How many kilometres will the lorry driver have travelled after 3 days?

4. Alice exercises for 25 minutes a day. How long does she exercise for in a week? Give you answer in hours and minutes.

Today you will be using division to
solve problems

Group A – Tuesday
Group B - Wednesday

Day 2

- ❖ Complete **CGP Maths book pages 10 and 11**
- ❖ [Click here to watch a video about using a bar model to solve division problems](#)
- ❖ Complete the questions on the next few pages

Group A – Tuesday
Group B - Wednesday

2. Work out the values of a , b and c .

120		120		120		120	
c	c	c	c	c	c	c	c

A cartoon illustration of a young girl with long brown hair and glasses, sitting cross-legged on a large red mushroom with white spots. She is holding an open blue book and reading. The scene is set in a garden with green grass, a pink worm, and a smaller red mushroom with white spots.

Word problems (draw a bar model then solve)

Group A – Tuesday
Group B - Wednesday

3. Three classes in Year 5 raise £741 in an enterprise project and they share the money equally. How much does each class receive?

4. Emily baked 216 cupcakes for a charity event. She placed them in 9 boxes. How many cupcakes were in each box?

Word problems (draw a bar model then solve)

Group A – Tuesday
Group B - Wednesday

5. Books are available to buy in three different deals.

Deal A

£12.99

Deal B

£38.16

Deal C

£25.60

Which is the best deal?

Day 3

Today is your LIVE LESSON!
See you at 10am, 11am or 1pm!

Welcome to your maths live lesson!

You will need:

- ✓ A pencil & paper/distance learning book
- ✓ CGP maths book

Session outline

- ❖ Warm up
- ❖ Bar model division (review)
- ❖ Problem-solving using the bar model

Jot down your answers in your distance learning book or on paper

Flashback 4

Year 5 | Week 1 | Day 2

- 1) Add together 0.3 and 0.5
- 2) Write $\frac{68}{200}$ as a percentage.
- 3) Round 6.43 to the nearest tenth.
- 4) What number is 5 less than 2?

Flashback 4

Year 5 | Week 1 | Day 2

How did you
score?
What do you need
to keep practising?

- 1) Add together 0.3 and 0.5 **0.8**
- 2) Write $\frac{68}{200}$ as a percentage. **34%**
- 3) Round 6.43 to the nearest tenth. **6.4**
- 4) What number is 5 less than 2? **-3**

Books are available to buy in three different deals.

$\frac{2}{3}$ of the children at a magic show were girls. There were 8 boys. How many girls attended the magic show?

$\frac{2}{3}$ of the children at a magic show were girls. There were 8 boys. How many girls attended the magic show?

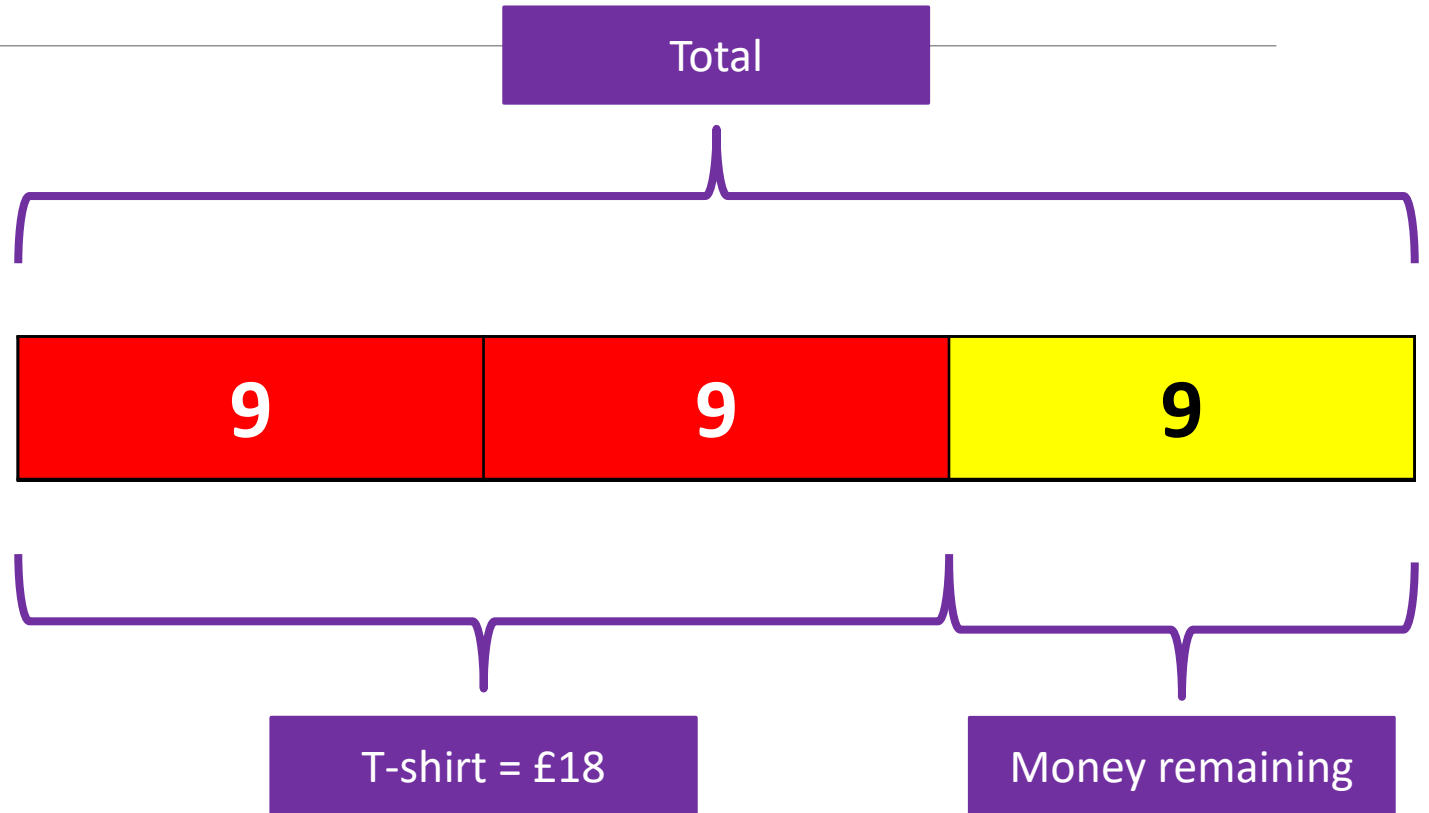

David put some money in his pocket and went shopping. He spent $\frac{2}{3}$ of his money on a t-shirt and had £9 remaining. How much money did the t-shirt cost?

Your turn!

David put some money in his pocket and went shopping. He spent $\frac{2}{3}$ of his money on a t-shirt and had £9 remaining. How much money did the t-shirt cost?

$\frac{5}{11}$ of the children
at the karate club
were boys. There
were 60 girls. How
many boys
attended the club?

Answer on the next page

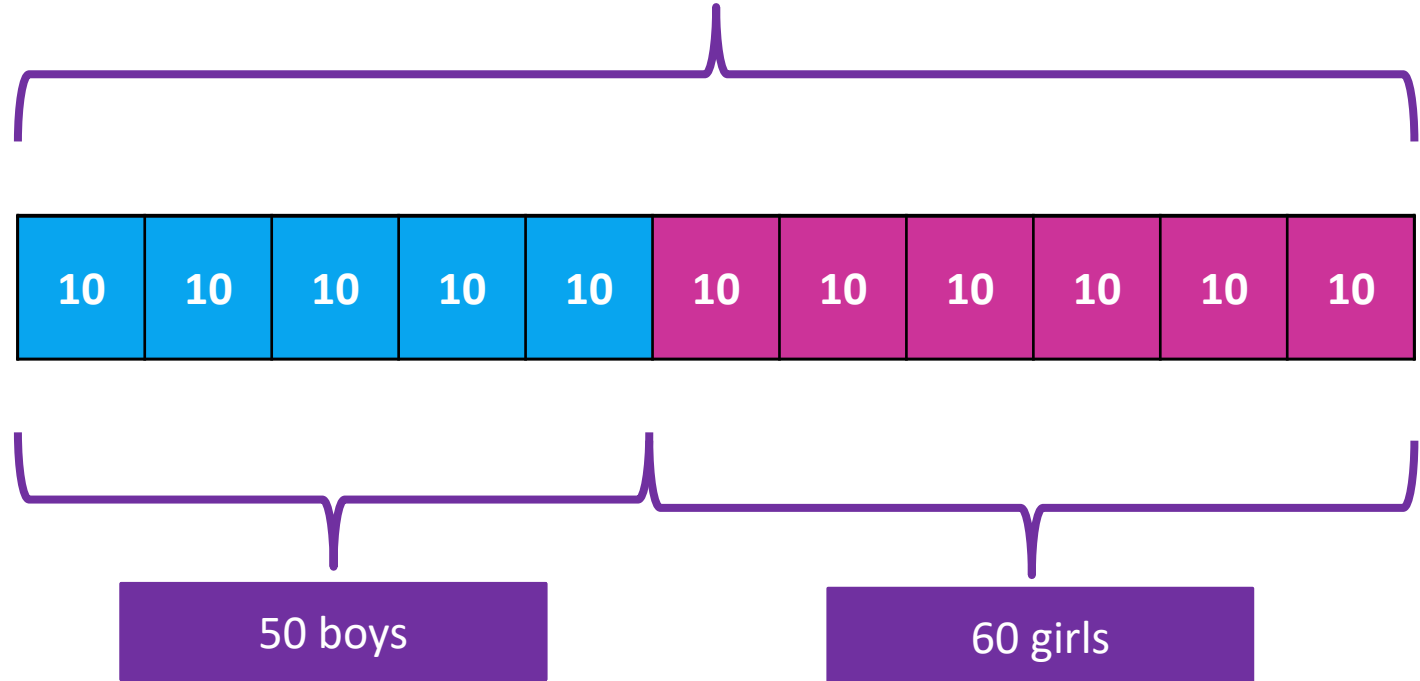

Your turn!

$\frac{5}{11}$ of the children at the karate club were boys. There were 60 girls. How many boys attended the club?

Total children

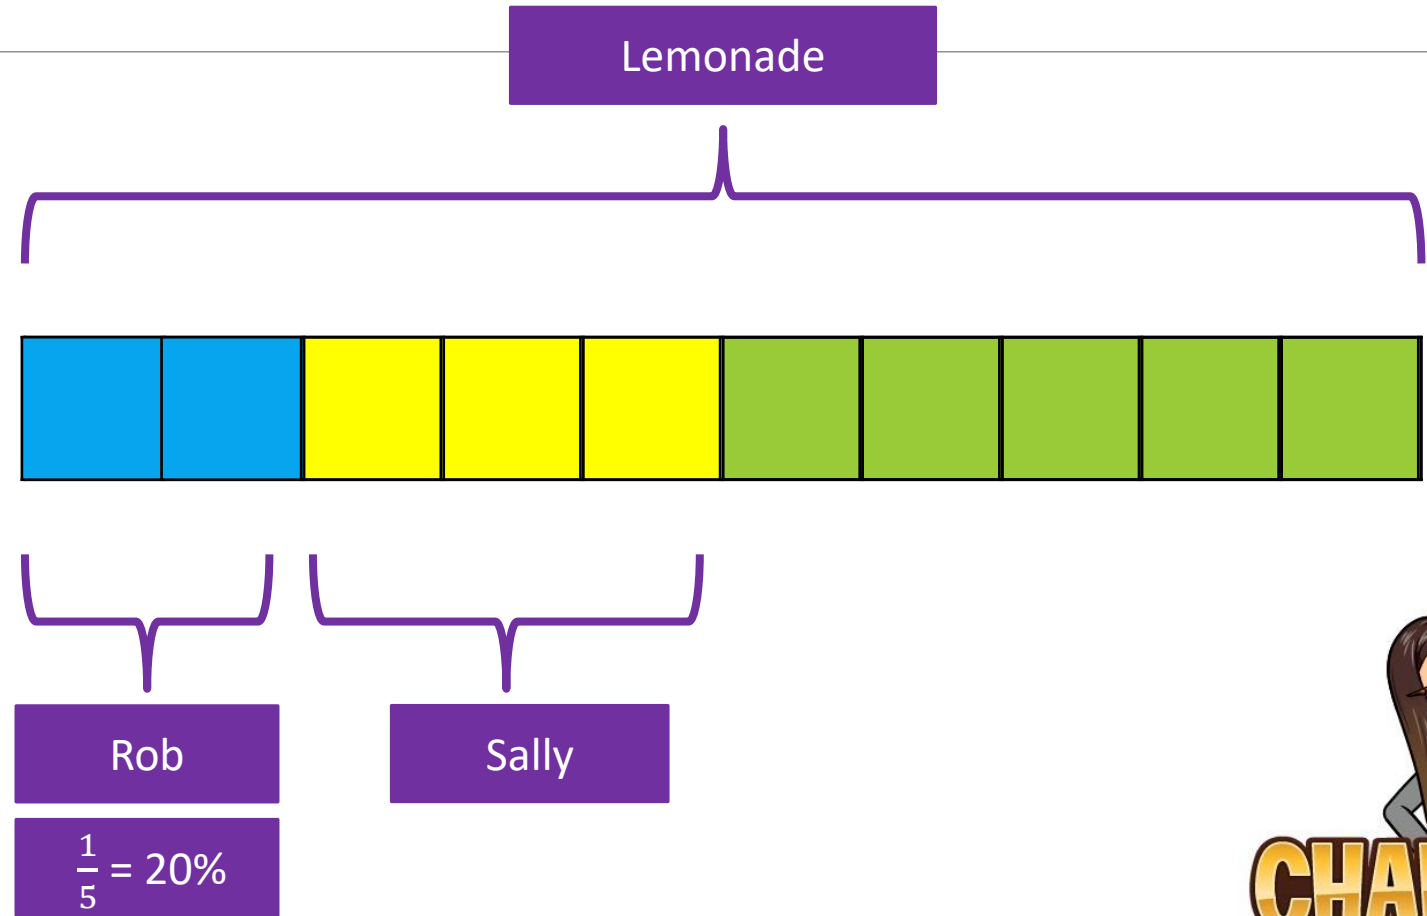

Answer on the next page

Rob and Sally share a bottle of lemonade.

Rob drinks $\frac{1}{5}$ of the bottle and Sally drinks 30%. How much lemonade did they drink? Give your answer as a percentage.

Rob and Sally share a bottle of lemonade. Rob drinks $\frac{1}{5}$ of the bottle and Sally drinks 30%. How much lemonade did they drink? Give your answer as a percentage.

Day 3

Independent Tasks!
Draw a bar model and solve these questions!

Group A – Wednesday
Group B – Thursday

Katherine and Felix are sharing a pizza. Katherine cuts the pizza in to 10 slices. She takes 4. Felix wants 50% of the whole pizza. How many slices are left?

Rebecca and Jason share a pizza. Rebecca eats $\frac{2}{5}$ of the pizza and Jason eats 50%. How much pizza is left? Give your answer as a percentage.

Day 3

Independent Tasks!
Draw a bar model and solve these
questions!

Group A – Wednesday
Group B – Thursday

Oscar has a bag of marbles. He gives 30% to his sister and keeps the rest. His sister received 18 marbles. How many does Oscar have?

Frances is checking her craft supplies. There are 60 beads in the bag. The beads are red, yellow or blue. 40% of the beads are blue. 512 of the beads are red. How many beads are yellow?

Day 4

- ❖ Complete **CGP Maths book pages 22 and 23**
- ❖ Use a bar model to draw out the word problems in your distance learning book.
- ❖ Complete the additional challenge questions on the next page
- ❖ Well done for all your hard work this week!

Additional Challenges

Group A – Thursday
Group B - Friday

Challenge 1

30 cakes are arranged in an array. Some of the cakes are hidden.

How many cakes are hidden?

Challenge 2

Work out the missing numbers.

$$10 \times 2 = 5 \times \text{blue circle}$$

$$10 + 2 = 5 + \text{orange triangle}$$

$$10 \div 2 = 5 \div \text{green square}$$

$$10 - 2 = \text{yellow heart} - 5$$

Challenge 3

Sonny buys 2 pencils and 3 rulers.

Each pencil costs 69p.

Sonny pays with a £5 note and receives £1.07 change.

How much does a ruler cost?

Challenge 4

Group A – Thursday
Group B - Friday

Jack builds a tower using grey blocks.

Alex builds a tower using red blocks.

The towers are exactly the same height.

What is the minimum number of blocks they each use?

Catch-up Day!

- ❖ If you have not finished any of the maths activities this week, use your time today to catch up.
- ❖ If you have finished, use this extra time to work on:
 - Discovery
 - Votes for Schools
 - YUMU Charanga unit (music)
